[Als eine bekannte Weltreligion war der Buddhismus schon seit alter Zeit in vielen Ländern verbreitet. Er hat auch die Alttürken, die im Uigurischen Reich in Zentralasien lebten, beeinflusst und sie haben diese Religion angenommen. Der Buddhismus hat unter den Alttürken fünfhundert Jahre existiert, und im Uigurischen Reich hat sich eine umfangreiche buddhistische Literatur entwickelt.]

[This study discusses the composition and transmission of early Buddhist texts with specific reference to sūtra (sutta/sūtra) texts. Based on an initial overview of the stylistic and structural characteristics of these texts and the principles employed in the creation and organization of sūtra and verse collections that, I argue, indicate that they were oral compositions that were intended to be memorized and transmitted verbatim, the study focuses on the types of changes that these texts underwent in the course of their transmission, both intentional and unintentional, and the reasons such changes occurred. It

then gives an account of the challenges that change, particularly intentional change, must have posed to the oral transmission of fixed texts.]

[The most serious objection to Kamaleswar Bhattacharya's thesis that the Buddha did not deny the universal atman may be put in the form of this question: Why, then, did Buddhists down through the ages think he did? Reply: Actually, they did not think this, as far as we can tell from their writings that refute the atman and teach the anatman or no-self doctrine. The idea of the atman as the

impersonal universal atman did not become dominant in India until some time after the eighth century C.E. Before then, throughout the Buddhist period, the dominant idea of the atman in India was that of a permanent personal atman. Judging from their writings, the Indian Buddhist teachers from Nagarjuna to Aryadeva to Asanga to Vasubandhu to Bhavya to Candrakirti to Dharmakirti to Santaraksita thought that the Buddha's anatman teaching was directed against a permanent personal atman.]

[The book draws attention to the varied, historically contingent, and sometimes competing, arguments for and about sovereignty that operated in the Pali arena during the first half of the second millennium AD. It was a time of expanding interaction within the Indian Ocean just prior to Portuguese colonial presence in Southern Asia. Developing a linked series of case studies and examining territories now subsumed within the nation-states of Sri Lanka, Burma/Myanmar, and Thailand, Blackburn examines sovereign arguments expressed textually, as well as in the built environment, by persons with an interest in the teachings and institutions associated with Gotama Buddha.]

The original Sublime Continuum Explanatory Commentary was written by Noble Asaṅga to explain the verses by the bodhisattva Maitreyañātha around the 4th CE century in North India. Here it is introduced and presented in an original translation from Sanskrit and Tibetan, with the translation of an extensive Tibetan Supercommentary by Gyaltsap Darma Rinchen (1364–1432 CE), whose work is considered to follow the view of his teacher, Tsong Khapa (1357–1419 CE).]

Sīmās continue to be deployed in the creation of monastic lineages and to function in diverse ways for monastics and non-monastics alike. As foundations of Buddhist religion, sīmās are used to sustain, revitalize, or reform Buddhist practices, notions of identity, and conceptualizations of time and history. In the last few decades, scholarly awareness of and expertise on sīmās has developed to a point where a volume like this one, which examines sīmās across numerous cultural contexts and scholarly fields of inquiry, is both possible and needed. Engaging with the digitalized Chinese Buddhist canon, Ching Keng draws on clues from a long-lost Dunhuang fragment and considers its striking similarities with Paramartha's corpus with respect to terminology, style of phrasing, and doctrines. In this cutting-edge interpretation of the concept of jìexíng, Keng demystifies the image of Paramartha and makes the case that the fragment holds the key to recover his original teachings.]

[In the early fifteenth century, two Tibetan monks debated how to transform the body ritually into a celestial palace inhabited by buddhas. The discussion between Ngorchon Künga Zangpo and Khédrupjé Gélek Pelzangpo concerned the mechanics of this tantric ritual practice, known as body mandala, as well as the most reliable sources to follow in performing it. As representatives of the Sakya and emerging Geluk traditions respectively, these authors spoke for communities of Buddhist practitioners vying for patronage and prestige in an evolving Tibetan scholastic culture. Their debate witnessed clashes between imagination and deception, continuity and rupture, and tradition and innovation.]

Conjuring the Buddha offers a history of early Tantric Buddhist ritual through the lens of the Tibetan manuscripts discovered near Dunhuang on the ancient Silk Road. Jacob P. Dalton argues that the spread of ritual manuals offered

Buddhists an extracanonical literary form through which to engage with their tradition in new and locally specific ways. He suggests that ritual manuals were the literary precursors to the tantras, crucial to the emergence of esoteric Buddhism. ]

[Prajñāraśmi (1518-1584), ou « Lumière de Sagesse », est le nom de plume sanskrit d'un auteur tibétain qui vécut durant une période de crise politico-religieuse située entre la pleine assimilation du bouddhisme indien par les Tibétains et l'instauration du régime des Dalaï-Lamas. Dans ce contexte d'instabilité, Prajñāraśmi se distingua par une formation éclectique exceptionnelle et un enseignement qui, centré sur l'idée de sagesse – ou gnose –, chercha à montrer l'unité des différentes traditions du bouddhisme au Tibet.

Ses grands textes sont présentés et traduits dans cet ouvrage, notamment l'Ambrosie de l'étude, de la réflexion et de la méditation, et la Lampe qui illumine les deux vérités, qui traite de la philosophie de la voie du milieu (Madhyamaka). Sa biographie, ainsi que l'étude de son oeuvre et de son héritage, révèlent une filiation entre les

renouveaux de l'école des Anciens (Rnying ma pa) durant la réunification du Tibet sous le Ve Dalaï-Lama (xviiie s.), la nouvelle révélation de 'Jigs med gling pa (xviiiie s.), et la floraison du mouvement « impartial » (ris med, xixe siècle) avec la collection transsectaire du Trésor des instructions spirituelles.]

[The Buddhist Indus script (Sindhulipi or Saindhavī) refers to an Indian script with “arrow-headed” characters which the British Indologist Cecil Bendall (1856–1906) noticed for the first time in a twelfth-century manuscript, and which later scholars tentatively called “Bhaiksukī”. With the help of some Tibetan sources it is actually possible not only to establish its original name, i.e. “Saindhavī”, but also to prove a direct connection between this script and the Saindhava monks or the Sāmmitīyas. Despite the importance of this Buddhist school, until recently its original canonical literature was considered to have been lost.]

[Bringing Buddhism to Tibet is a landmark study of the Dba' bzhed, a text recounting the introduction of Buddhism to Tibet. The narrative of Buddhism's arrival in Tibet is known from a number of versions, but the Dba' bzhed—preserved in a single manuscript—is the oldest complete copy. Although the Dba' bzhed stands at the head of a long tradition of history writing in the Tibetan language, and has been known for more than two decades, this book provides a full transcription of the Tibetan for the first time, together with a new translation. [Buddhis philosophy -- Madhyamaka -- Mahayana --  
History

Indian Buddhist Philosophy is a reconstruction of the history  
of Indian Buddhist thought that starts from the idea - of  
Madhyamaka origin - that in the teaching of the historical  
Buddha it is possible to identify three distinct and  
irreconcilable theoretical modes or registers, intended for  
different types of followers: the affirmative mode of being,  
the negative one of non-being, and the "middle path" of  
neither being nor non-being. The history of Buddhism after  
the disappearance of the Buddha is presented here as the  
development of these registers in three main philosophical  
directions: respectively, the personalist one, of the  
Pudgalavada schools; the reductionist one of the Theravada,  
Sarvastivada and Sautrantika schools; and the one of the  
Mahayana schools - primarily the Madhyamaka - which,  
following some suggestions already present in the  
Mahasamghika circles of the Abhidharma phase, deepen in  
particular the third theoretical strand proposed by the  
Buddha: the middle one, which excludes both being and  
non-being, in a frequently but not exclusively  
anti-metaphysical direction.]

Volume II ('Self, No Self'), meanwhile, surveys the great diversity of Indian thinking about the mind, with particular emphasis on the vibrant and dynamic work done by a new generation of scholars working at the interface between Buddhist Studies, Cognitive Science, Philosophy of Mind, and Phenomenology. Volume III ('Critical Indian Philosophers') focuses on the thought of the

most important individual thinkers in the Indian tradition, including: Nāgārjuna, Śāṅkara, Dignāga, Dharmakīrti, Patañjali, Kumāṛila, and Śrīharṣa. The final volume in the collection ('Being and Truth') collates canonical and cutting-edge pieces on Indian theories of being and what there is; realism and antirealism; the nature of truth and representation; and language and logic. Buddhist art originated more than 2,000 years ago, shaping religious practice and artistic motifs as it spread from India throughout South, North, and Southeast Asia. Tree and Serpent explores the ways early sculptural works by Buddhist artists, architects, and practitioners were transformed as the religion moved across the continent. World-renowned scholars from India, Europe, and the United States demonstrate how figurative sculpture and the narrative tradition in India were central to the function and meaning of early Buddhist art and architecture.]

In the Apohavāda chapter of his Ślokavārttika, the seventh-century Hindu philosopher Kumārila undertakes an exhaustive critique of the distinctive Buddhist theory of meaning, the "theory of exclusion", or Apohavāda.

According to this theory, which was introduced by the sixth-century Buddhist thinker Dignāga, a word refers not to some positive entity such as a universal, but to an "exclusion". It became one of the core teachings of the

Dharmapala is a galvanizing figure in Sri Lanka's recent history, widely regarded as the nationalist hero who saved the Sinhala people from cultural collapse and whose 'protestant' reformation of Buddhism drove monks toward increased political involvement and ethnic confrontation. Yet he spent the vast majority of his life abroad, dealing with

other concerns. Steven Kemper re-evaluates this important figure in the light of an unprecedented number of his writings that paint a picture not of a nationalist zealot but of a spiritual seeker earnest in his pursuit of salvation.]

["A Manual of the Adornment of the Monastic Boundary", is a verse text of 99 stanzas written in the Middle Indic language Pāli around the beginning of the 13th century by the Sinhalese monk Vācissara. It deals with Buddhist monastic boundaries (sīmā) which define the areas within which Buddhist communities of monks or nuns meet to carry out legal acts such as ordinations. Any ambiguity of a monastic boundary can cause the invalidity of the legal acts carried out within it. The Sīmālaṅkārasaṅgaha focuses on a difference in interpretation regarding whether or not connections between certain types of monastic boundaries, namely between a 'determined boundary' and a 'village boundary', lead to a confusion of the areas, and thus render the legal acts carried out within the 'determined boundary' invalid. Vācissara defends the Sinhalese approach that says that there is a confusion against the South Indian Coḷiya approach that says there is not. This is the only text that throws light on the relation of these two traditions and their dispute about monastic boundaries from the Sinhalese perspective.]

Yaroslav Komarovski offers an annotated translation of three seminal works on the nature and relationship of the Yogacara and Madhyamaka schools of Buddhist thought, by Serdok Penchen Shakya Chokden (1428-1507). There has never been consensus on the meaning of Madhyamaka and Yogacara, and for more than fifteen centuries the question of correct identification and interpretation of these systems has remained unsolved. Chokden proposes to accept Yogacara and Madhyamaka on their own terms as compatible systems, despite their considerable divergences and reciprocal critiques. His major objective is to bring Yogacara back from obscurity, present it in a positive light, and correct its misrepresentation by earlier thinkers. He thus serves as a major resource for scholarly research on the historical and philosophical development of Yogacara and Madhyamaka. Until recently, Shakya Chokden's works have been largely unavailable.]

He proved the missionaries wrong, teaching a dharma that was in harmony with modern science. And his influence continues. Today his teaching of "mindfulness" is heralded as the cure for all manner of maladies, from depression to high blood pressure.]

[Lopez provides an engaging history of depictions of the Buddha from classical accounts and medieval stories to the testimonies of European travelers, diplomats, soldiers, and missionaries. He shows that centuries of hostility toward the Buddha changed dramatically in the nineteenth century, when the teachings of the Buddha, having disappeared from India by the fourteenth century, were read by European scholars newly proficient in Asian languages. At the same time, the traditional view of the Buddha persisted in Asia, where he was revered as much for his supernatural powers as for his philosophical insights. From Stone to Flesh follows the twists and turns of these Eastern and Western notions of the Buddha, leading finally to his triumph as the founder of a world religion.]

[The Tathāgatagarbha or Buddha nature doctrine is centered on sentient beings' potential for buddhahood - sometimes understood in the sense that all being already contains a "buddha within". This notion is found through various strands of early Mahāyāna sources that, notwithstanding their complex and interwoven development, came to share enough common features to summarize them under the doxographical category of Tathāgatagarbha, a position distinct from those of Madhyamaka and Yogācāra.

[Tripiṭaka Sūtrapiṭaka Ugrapariṣcchā -- Commentaries --  
 Mahayana buddhism  
 A Few Good Men is a study and translation of The Inquiry of  
 Ugra (Ugrapariṣcchā), one of the most influential  
 Mahâyâna sutras on the bodhisattva path, but also one of  
 the most neglected texts in Western treatments of  
 Buddhism. To achieve a better understanding of the  
 universe of ideas, activities, and institutional structures  
 within which early self-proclaimed bodhisattvas lived, the  
 author first considers the Ugra as a literary document,  
 employing new methodological tools to examine the genre  
 to which it belongs, the age of its extant versions, and their  
 relationships to one another. She goes on to challenge the  
 dominant notions that the Mahâyâna emerged as a "reform"  
 of earlier Buddhism and offered lay people an "easier  
 option." A Few Good Men will be compelling reading for  
 scholars and practitioners alike and others interested in the  
 history of Indian Buddhism and the formation of Mahâyâna.]

[The present work is an analytical philosophic enterprise  
 dealing with a specific topic, viz. nirvana, in Candrakīrti's  
 Prasannapada, which represents and is a standing testimony  
 to the Buddhist critical philosophy par excellence. A unique  
 revolution in the world of thought has been brought about  
 by Acarya Candrakīrti, the great Prasangika Madhyamika  
 thinker of 7th century C.E., through his theory of nirvana as  
 sarva/nirvasesa Kalpanaksaya (cessation of essentialist  
 thought-constructions/speculative picture-thinking)  
 developed in his magnum opus, Prasannapada, thus giving  
 the idea of nirvana a novel turn, viewing it from a fresh  
 perspective.]

[Buddhism -- India -- 19th-20th centuries -- History

Received wisdom has it that Buddhism disappeared from

India, the land of its birth, between the thirteenth and

fourteenth centuries, long forgotten until British colonial

scholars re-discovered it in the early 1800s. Its full-fledged

revival, so the story goes, only occurred in 1956, when the

Indian civil rights pioneer Dr. B.R. Ambedkar converted to

Buddhism along with half a million of his Dalit (formerly "untouchable") followers. This, however, is only part of the story. *Dust on the Throne* reframes discussions about the place of Buddhism in the subcontinent from the early nineteenth century onwards, uncovering the integral, yet unacknowledged, role that Indians played in the making of modern global Buddhism in the century prior to Ambedkar's conversion, and the numerous ways that Buddhism gave powerful shape to modern Indian history.]

This book presents a comprehensive analytical review of extant scholarship on perspectives on free will. It studies and refutes the most powerful Western and Buddhist philosophical objections to free will and explores the possibility that a form of agency may in fact exist within Buddhism. Providing a detailed explanation of how Buddhist meditation increases self-regulative mind-control abilities, the author argues that the Buddhist path is designed to produce meditation virtuosos exhibiting mind-control abilities far exceeding the free-will advocate's ability to 'do otherwise' or have their choices be 'up to' them.]

[Monastic and religious life (Buddhism) -- India -- History

The present volume provides an essential foundation for a  
social history of Indian Buddhist monasticism. Challenging  
the popular stereotype that represented the accumulation  
of merit as the domain of the layperson while monks  
concerned themselves with more sophisticated realms of  
doctrine and meditation, Professor Schopen problematizes  
many assumptions about the lay-monastic distinction by  
demonstrating that monks and nuns, both the scholastic  
elites and the less learned, participated actively in a wide  
range of ritual practices and institutions that have  
heretofore been judged 'popular,' from the accumulation  
and transfer of merit; to the care of deceased relatives; to  
serving as sponsors and donors, rather than always the  
recipients, of gifts; to (possibly) the coining of counterfeit  
currency. ]

**Epistemology.** 346p. Delhi 2025 9780190907532

[Stoltz demonstrates how many of the arguments and  
debates occurring within classical Buddhist epistemological  
treatises coincide with the arguments and disagreements

found in contemporary epistemology. He shows, for example, how Buddhist epistemologists developed an anti-luck epistemology-one that is linked to a sensitivity requirement for knowledge. Likewise, Stoltz explores the question of how the study of Buddhist epistemology can be of relevance to contemporary debates about the value of contributions from experimental epistemologists, and to broader debates concerning the use of philosophical intuitions about knowledge]

9788194118404 Dept. of Pali, Savitribai Phule Pune Univ./Aditya Prakashan (50476) ¥8100

[The present book contains the entire Sanskrit text of Haribhaṭṭa's Jātakamālā (ca. AD 400), as far as it has been preserved in a few manuscripts presently accessible to us. Haribhaṭṭa's work belongs to the Buddhist genre of "Garlands of stories about previous lives of the Buddha" and represents a rare specimen of early Sanskrit poetry written in the Campū style. Since 1904 when scholars first learned about Haribhaṭṭa's Jātakamālā from Tibetan sources, it was assumed that the Sanskrit work has been irretrievably lost and that it has survived only in its Tibetan translation. Although in the 1970s some parts of the original Sanskrit text were discovered and later made known in various publications by the late Professor Michael Hahn, a complete and handy edition of the entire work did not appear in print. The present book aims to close this gap by offering a critical re-edition of all parts which have been previously published, and by supplying new editions of those parts which have not been published before. The Sanskrit text is fully annotated with text-critical notes and explanatory comments, and is followed by various indices and a glossary of unknown and noteworthy words.]

[Knowledge -- Buddhist logic

The Sakya scholar Taktsang Lotsawa (born 1405) published

the first systematic critique of Tsongkhapa's system. In the fifth chapter of his Freedom from Extremes Accomplished through Comprehensive Knowledge of Philosophy, Taktsang attacks Tsongkhapa's understanding of Candrakīrti and the cogency of integrating Prasāngika Madhyamaka with any epistemology. This attack launches a debate between Geluk scholars on the one hand and Sakya and Kagyu scholars on the other regarding the proper understanding of this philosophical school and the place of epistemology in the Madhyamaka program. This debate raged with great ferocity from the 15th through the 18th centuries, and continues still today.

The two volumes of Knowing Illusion study that debate and present translations of the most important texts produced in that context.]

[Nāgārjuna, active 2nd century -- Negation (Logic) -- Buddhist philosophy

The conception of atman- Brahman is the foundation of Vedic philosophers' understanding of transcendentals as truth (sat), consciousness (cit) and bliss (ananada).

Nagarjuna, on the other hand, employs negative dialectics to confute the logical structure of either/or that demands metaphysical concepts; and by employing the four-value logical structure, he introduces the transcendentals as wisdom and compassion. This book uses Nagarjunian art of negation to reread his philosophy differently to discern the concept of emptiness ( sunyata) as the co-dependent evolution of various elements of the subjective self and the elements of objective experiences in the dominion of the subjective self; therein it is possible to redefine no-soul (nairatmya) as self-being, and idominion of subjectivityi for replacing a metaphysical postulation; and the

transcendentals as wisdom and compassion.]

Innovative, semiological readings of the influential Guhyasamaja Tantra underscore the text's overriding concern with purity, pollution, and transcendent insight—issues shared by all Indic religions—and a large-scale, quantitative study of Tantric literature shows its radical antinomianism to be a highly managed ritual observance restricted to a sacerdotal elite.]

Second, within Madhyamaka, Candrakīrti's text occupies a very prominent role.
